

Artwork/Project Title

Artwork/Project Description

BNMC 22nd Anniversary

As the coordinator of 2D team, I collaborated with four staff members to design the visual requirements for BNMC 22nd anniversary, themed 'The Lights of Gratitude Unlocks New Strength'. We raised the concept of "jar of gratitude". The idea behind this concept is to cultivate gratitude and appreciation for the positive things in someone's life.

Year Accomplished

Challenge: At first our team had limited experience using Adobe Photoshop and Illustrator.

2022

Solution: Collaborated with senior team members to create a training program to enhance our design software skills. Additionally, we work together to assist each other in overcoming any obstacles that arise during the design process.

Role/Position

Coordinator of Design and Documentation Division
